Comprehensive Lawn Care Services

Your subscription includes a programme of care that helps nurture your lawn with expert attention.

Luxury Lawn (4/5 Applications):

Treatment 1 First & Last

Jan | Feb | Mar | Dec

Supports root development & plant strength in late autumn through to winter & early spring.

Treatment 2 Liquid Iron

Jan | Feb | Mar | Dec

Winter moss control to keep moss dehydrated through colder winter months.

Treatment 3 Ultimate

Mar | Apr | May

Slow-release nitrogen to maintain lush growth. A proportion of fast release nitrogen is also applied for green up.

Treatment 4 DroughtSafe

Jun | Jul | Aug

With a high level of amino acids in this material provide relief to stressed out lawns in the dryer summer months.

Treatment 5 AutumnGreen

Sep | Oct | Nov

A perfectly blended fertiliser to prepare the lawn for the cold months ahead and to help maintain red thread fungal attacks.

Each lawn is unique, that's why we build a plan that fits your goals, soil type and grass condition.

You'll have your own dedicated Lawn Care Technician

With our subscription you'll get five treatments per year (this does not include any machine work, which can be added as an extra).

Approximately every 8-10 weeks a new treatment will be applied to the grass helping it stay green, thick & weed free!

From as little as £20 per month! more time enjoying your lawn and less time working on it.

Easy, Hassle-Free & Predictable

1. Sign-Up & First Assessment

Once you join the subscription programme, we start with a full lawn health check to determine priority treatments.

2. Scheduled Care Visits

We visit on a planned schedule, every 8-10 weeks we will treat the lawn with exactly what it needs to control weeds & moss, while feeding the grass keeping it green and thick all year round.

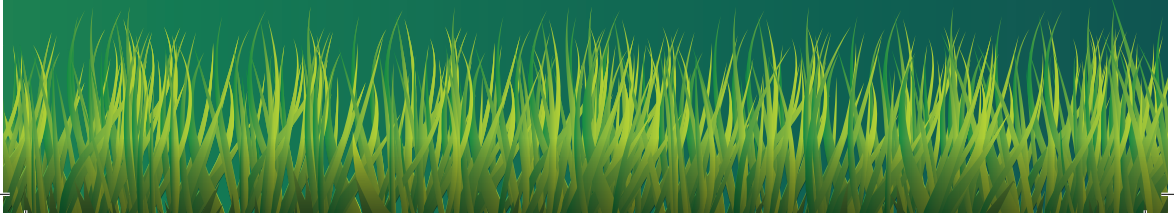

- ✔ Weed and moss treatment
- ✔ Fertilisation and turf feeding
- ✔ Soil aeration if required
- ✔ Monitoring progress and adjusting treatment

3. Ongoing Support

You'll receive professional advice and recommendations throughout the year, helping you understand what your lawn needs as the seasons change.

Flexible Packages:

We offer options to suit every lawn size and budget — from basic upkeep to full premium care.

In addition to our standard lawn care subscription programme, Grasshoppers Inc provides a range of optional extras to enhance your outdoor space.

Lawn Care Extras

Yearly Scarification (Spring & Autumn)

Over time your lawn can build up a layer of thatch — dead grass, roots and debris that suffocates healthy growth. Our yearly scarification service uses powerful rotating blades to gently lift and remove this layer, allowing oxygen, water and nutrients to reach the soil. The result? A greener, healthier, more vigorous lawn that's better prepared for seasonal challenges.

Lawn Aeration (Early Spring or Late Autumn, November)

Compacted soil stops roots from growing deep and makes it harder for water to penetrate. Lawn aeration relieves that compaction by creating holes throughout the turf using specialist machinery. This improves air circulation, enhances water drainage and encourages strong root development for a lush, resilient lawn that thrives year-round.

Full Lawn Renovation

Our full lawn renovation service gives tired or damaged lawns a complete fresh start. We remove the existing grass, carry out deep scarification and aeration, apply quality topsoil, then sow premium grass seed tailored to your garden. The result is a strong, healthy lawn built from the ground up.

Hard Surface Treatment (All year round)

Our hard surface treatment restores patios, driveways and paths by removing dirt, algae, moss and weeds

using professional cleaning equipment. This improves appearance, safety and longevity, leaving outdoor surfaces clean, fresh and well maintained.
